

Faculty of CIT
CAT2 Cloud Computing
Due 1st Oct 2020, Time 1.5hr.

You were recently hired by ABC Ltd as the ICT application developer. You have convinced the ICT Director to move the corporate website to the cloud.

- a) Develop a simple HTML app that displays your name and registration number and upload it to the cloud (this would represent the website) (10marks) – attach screen shot of app on within your cloud Account.
- b) Enable Continuous Delivery (ToolChain/Git repo) to manage and maintain your cloud application. (10Marks) -- attach screen shot of app on within your cloud Account.
- c) Develop an AI driven mobile app that accepts English speech and prints out the spoken word into Text.

Ensure you give the account jwalubengo@mmu.ac.ke the Audit Role to review and confirm your work on the cloud.
